

10 Sept. 891

Dear Mr. Watson,
A week or so
ago I wrote to you
respecting some mosses,
being under the
impression they might
belong to the *Herposiphonia*
but I find that
they are Mr. Wittens'

property.

My excuse
for troubling you
is that the species
in question (from a
list shown me by
Mrs. Britton) are
wanting in the
herbarium.

Apologizing for
troubling I remain

Yours faithfully

W. Botting Hensley
